July 2024

What's New at TruVine

Staffing Services

TruVine Staffing Services provides highly trained and ready-to-assist employees to hospitals, nursing homes, and other elderly care facilities. Our dedicated staff is equipped to offer additional support, ensuring these facilities can deliver the utmost care to their clients.

Whether for temporary staffing needs or long-term support, TruVine Staffing Services is committed to enhancing the quality of care provided to patients and residents.

Skilled Nursing and Home Health Aides

TruVine Homecare offers skilled nursing and home health aides. That enables us to provide professional nursing and therapeutic services, including physical therapy, occupational therapy, speech pathology, medical social services, and home health aides to disabled, aged, injured, or sick individuals on a part-time or intermittent basis in their homes. Our skilled aides ensure TruVine provides high-quality home healthcare.

Get to Know Teju - TruVine Founder and CEO

Hello, I'm Teju Adegunwa, also known as TJ. I'm the founder of TruVine Homecare, a company I started about six years ago. TruVine's office is based in Ardmore, Pennsylvania, and serves the surrounding counties.

My vision for TruVine was a homecare built based on fairness, honesty, and respect for clients and employees.

Before TruVine, I worked in the healthcare field for fourteen years. Healthcare has always been a passion of mine.

I'm an alumna of Saint Joseph's University in Philadelphia. I graduated with a double major in Healthcare Administration and Healthcare Education.

TruVine New Look

Over the next few weeks, our employees will be showcasing the TruVine spirit! We are excited to introduce new t-shirts in our company colors- orange and green, which will be distributed to all TruVine employees.

TruVine Homecare

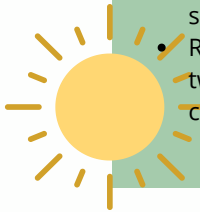

UV Safety Awareness Month

July is UV Safety Awareness Month and a reminder that exposure to the sun is the most critical risk factor for skin cancer.

UV is not just a product of the sun but also from sunlamps and tanning beds. It's important to be aware of all these sources of UV exposure.

Ways to reduce the risk of skin cancer are:

- The application of sunscreen before going outside. Apply to all areas that are exposed to the sun.
- Reapply sunscreen every two hours, even on cloudy days.

Topic of the Month

The Importance of Hydration and Nutrition in care is the topic for July. At TruVine, we will educate our employees further and highlight the importance of hydration and nutrition. It will also be the topic of this month's lunch and learns.

TruVine Referral Program

At TruVine Homecare, we value our clients' and employees' trust and satisfaction. As a sign of our appreciation, we are introducing our Referral Program, designed to reward those who help us grow.

Whether you are a client or an employee, you can benefit from this program by referring new private clients to our services.

More information about the program can be requested by emailing truvinehomecareservices@gmail.com

TruVine Policy and Promise for Fairness

At TruVine Homecare Services, our commitment to fairness for both our clients and employees is central to our mission. We understand that homecare services can be pricey, but we believe that the cost is a worthwhile investment to ensure your loved ones receive the best possible care.

Having firsthand experience of the challenges faced when working for a homecare that prioritize profitability over the well-being of their employees, Teju was determined to create a different kind of organization—one that genuinely cares for its staff and clients alike. By paying our employees a fair wage, we ensure they are not burdened with concerns about their basic needs. This allows our caregivers to focus entirely on what truly matters: caring for you or your loved one, our valued client, with the highest quality of care.

Our pricing structure is designed to provide our dedicated staff with a fair wage. The principal stems from the core values instilled by our founder and CEO, Teju, when she established TruVine Homecare Services. Teju's vision for this company was built on the foundations of fairness, honesty, and respect for both clients and employees.

TruVine believes that when our employees are well supported, they can offer better, more attentive care to our clients. This commitment to fairness and equality is a cornerstone of TruVine Homecare Services, and we are proud to uphold this belief.

Thank you for trusting TruVine Homecare Services. We are dedicated to maintaining the highest standards of care and integrity in all we do.
